- Git (Github, Bitbucket)

### Languages:

- English (Full professional proficiency)
- Turkish (Mother Tongue)

## Work experience

### Qpien

Full Stack Developer

We are building User Interfaces using React.js. On the backend side, we are using Node.js, Redis,Apollo GraphQL Server, TypeScript. My responsibility is develop the project with using best practices method and writing testable, readable code. Also I write test cases using Jest.js.

**June 2021 — Currently**

### Cekmekoy Municipality IT Department

Innformation Technologies Intern

**August 2020 — September 2020**

## Interests

- For now, I'm focusing React, GraphQL and JavaScript. Also, I'm interested in Open Source Software.
